

BENEFITS

Eco-wallpaper
 Made from textile fibers and cellulose from certified sustainable sources
 Simple to install, non-woven and will not warp or stretch
 Made to measure limiting wastage and installation time
 100% recyclable and removable in entire strips
 Printed using non-toxic water based inks
 Breathable high grade non-woven contains no substances harmful to the health or the environment
 Colour grade meets the standards of traditional deep-print wallpapers
 Suitable for residential and commercial specification
 Lifecycle: almost endless. Because the material is a non-woven containing textile fibres the longevity is far better than standard cellulose based wallpaper which may degrade over time.

Strip width: 46.5 cm (18 inches)
Maximum height 7.5 meters (24 feet & 7 inches)
Repeats vary according to design
Murals: Panels supplied pre cut and numbered for ease of installation
Weight: 150g/sqm
Made to order: 2 weeks
Minimum order: 5 square metres
Edge: trimmed, ready to hang

Our wallpaper has been featured in: museums, schools, cafes & restaurants, nightclubs, bathrooms, kitchens, hotels, residential homes & retail showrooms
